

Kyada Ayush BharatBhai

Ahmedabad, Gujarat | +91 72018 98457 | ayushkyada2124@gmail.com

LinkedIn : [Link](#) | GitHub : [Link](#) | Portfolio : [link](#)

PROFESSIONAL SUMMARY :

AI/ML Engineer with hands-on experience in Python, Generative AI, Machine Learning, Computer Vision, LLMs, and AI Agents. Skilled in LangChain, OpenCV, NLP, REST APIs, and intelligent automation, with experience building AI-powered chatbots, desktop assistants, autonomous systems, and computer vision applications. Passionate about developing practical and scalable AI solutions for real-world problems.

EDUCATION :

Master of Computer Applications (MCA)

Silver Oak University | 2024 – 2026

Bachelor of Computer Applications (BCA)

Silver Oak University | 2021 – 2024

WORK EXPERIENCE :

AI/ML Intern : Darpy Solutions

Ahmedabad, Gujarat | 2025 – 2026

- Developed AI/ML solutions using **Python, Machine Learning, Computer Vision, NLP, Generative AI, and FastAPI**.
- Worked on **AI Agents, RAG, LLM-based applications, and intelligent automation** for real-world use cases.
- Built and integrated AI-powered applications, APIs, and automation workflows.

React.js & MongoDB Intern : N R Crew

Ahmedabad, Gujarat | Jun 2024 – Dec 2024

- Developed responsive web applications using **React.js, JavaScript, MongoDB, and REST APIs**.
- Worked on **Food Waste Management System (FWMS)**, implementing donor, NGO, and admin workflows.
- Integrated frontend and Backend components with backend services and database operations.

PHP Developer Intern : INFOTRONICX Pvt. Ltd.

Ahmedabad, Gujarat | Mar 2024 – May 2024

- Developed and maintained web applications using **PHP, HTML, CSS, JavaScript, and MySQL**.
- Implemented database-driven features, forms, authentication workflows, and application functionality.
- Debugged application issues and contributed to feature development and testing.

CERTIFICATIONS :

- Operationalize Generative AI Applications (Generative AI Ops) - Microsoft | 2026
- Operationalize Machine Learning Models (MLOps) - Microsoft | 2026

TECHNICAL SKILLS :

- **Programming Languages:** Python, JavaScript
- **AI / Machine Learning:** Large Language Models (LLMs), Generative AI, AI Agents, AI Agent Architectures, LangChain, Prompt Engineering, Natural Language Processing (NLP), Intent Recognition, Task Decomposition, MLOps
- **Computer Vision:** OpenCV, Real-Time Object Detection, Face-Based Biometric Authentication, Image Generation
- **Backend & APIs:** FastAPI, REST APIs, Uvicorn
- **Generative AI / RAG:** RAG, Local LLM Inference, Text Generation, Image Generation, AI Model Integration
- **Databases:** MySQL, SQLite, MongoDB
- **Tools & Version Control:** Git, GitHub, AI Development Tools
- **Additional Skills:** Problem Solving, Analytical Thinking, Software Development Lifecycle (SDLC), System Design Fundamentals

PERSONAL PROJECTS :

Personal AI Server — Local AI Inference & Generation API:

- Developed a self-hosted AI server using FastAPI for API-key-based text and image generation.
- Integrated local LLMs, image-generation models, RAG, and intelligent model routing.

NeuroDesk — AI Intelligent Desktop Assistant :

- Developed a multimodal AI desktop assistant using Python for voice interaction and automation.
- Implemented RAG-based document analysis, NLP, web research, and intelligent task execution.

TalentScout — AI Recruitment Hiring Assistant :

- Developed an AI-powered recruitment chatbot for candidate screening and interview generation.
- Integrated LLMs, prompt engineering, conversation memory, and candidate validation.

Real-Time Object & Face Detection System :

- Developed a real-time Computer Vision system for object and face detection using OpenCV.
- Implemented YOLOv3, facial landmarks, age/gender prediction, and distance estimation.

AI Autonomous Smart Response System :

- Developed a full-stack AI system for intelligent response generation and task automation. Implemented OpenCV-based face authentication and AI-driven response workflows.
